This Digital SUBURBAN ICONIC site is visible to the left of the road for traffic travelling inbound to the Brisbane CBD. Ipswich Road is a main southern arterial and carries large volumes of traffic from the fast growing areas of Logan City, Springfield, Ripley and the Gold Coast. Prominently situated close to the roadside, this site enjoys prolonged visibility by vehicles stopped at the traffic lights. The LED lights at the base of this structure can be matched to your artwork and create a memorable impression for your brand.

Restrictions: No special restrictions.
